SAR recognizes the importance of serving its role in society as a listed real estate investment corporation while maximizing unitholders’ interests.

With the aim to pursue long-term sustainability and to increase the corporate value of SAR, based on the “ESG Policy”, SAR intends to take initiatives towards reducing environmental loads such as taking energy conservation measures etc. as well as to resolve social issues.

3. Overview of CASBEE's Real Estate Assessment and Certification System

CASBEE (Comprehensive Assessment System for Built Environment Efficiency) is a system that comprehensively assesses the quality of a buildings, including evaluating features such as interior comfort and consideration towards scenic aesthetics, in addition to consideration towards the environment such as using materials and equipment that save energy or achieve smaller environmental loads. CASBEE's real estate assessment system was developed with the aim of making use of the results of the environmental assessment of buildings in real estate assessment. It scores buildings under each of the evaluation items in five categories, comprising "1. Energy & Greenhouse Gases," "2. Water," "3. Use of Resources & Safety," "4. Biodiversity & Sustainable Site," and "5. Indoor Environment". Based on the scores of such categories, the assessment results are granted under one of four ranks: Rank S, Rank A, Rank B+, and Rank B.
