Notice Concerning Acquisition and Transfer (Asset Replacement) of
Real Estate Beneficiary Interests in Trust

Star Asia Investment Management Co., Ltd. (the "Asset Manager"), to which Star Asia Investment Corporation ("SAR") entrusts the management of its assets, announces today its decision to acquire domestic real estate beneficiary interests in trust of the "Hotel WBF Fukuoka Tenjin Minami" (hereinafter referred to as the "Asset to be Acquired", and the acquisition of the Asset to be Acquired is referred to as the "Acquisition"), and transfer the quasi-co-ownership interest in the domestic real estate trust beneficiary interests in trust of the "Hakata-eki Higashi 113 Building" (hereinafter referred to as the "Asset to be Transferred", and the transfer of the Asset to be Transferred is referred to as the "Transfer" and collectively with the Acquisition, the "Asset Replacement").

Since its listing in April 2016, SAR has been pursuing the "maximization of unitholders' value" through implementation of active management strategies that is unconventional. As part of these initiatives, SAR has enhanced and strengthened its portfolio and realized attractive profits from the prior sales through two asset replacements that it has consummated so far, and SAR has distributed the profits from sales to unitholders in the third fiscal period (fiscal period ended July 2017) and the fourth fiscal period (fiscal period ended January 2018). (For details of the 1st Asset Replacement, please see "Notice Concerning Acquisition and Transfer of Real Estate Beneficiary Interests in Trust" as of December 5, 2016. For details of the 2nd Asset Replacement, please see "Notice Concerning Acquisition and Transfer of Real Estate Beneficiary Interests in Trust" as of February 28, 2017.)

SAR and the Asset Manager continue to regard the asset replacement strategy as an important measure for active management in the future as before, and hereby clarify the implementation policy for asset replacement as an active management as follows.

<Implementation policy for asset replacement>

The following three points shall be comprehensively considered when implementing asset replacement.

- ① Future revenue contribution of the assets to be replaced (strengthen SAR's portfolio)
 - Periodic evaluation of future revenue contribution for all owned assets (i.e. stability and growth potential of earnings, future estimate of the life-cycle costs, such as repair costs and capital expenditures, and balance between sales price)
 - Comparison of assets available for acquisition and the future revenue contribution of currently owned assets
 - Existence of real estate investors with different valuation bases for owned assets
- ② Real Estate Market Conditions by Asset Type

- Evaluation of investment environment for each investment asset type given macro economic environment and analyzing which asset types are most attractive for investment based on such evaluation
- Detailed consideration of asset type exposures that should be increased or decreased in the portfolio
- ③ Level of the investment unit price of SAR
 - Comparison between market indices such as the Tokyo Stock Exchange REIT Index and the trend of the investment unit price of SAR
 - Comparison between the level of investment unit prices and NAV per unit (Note) of SAR
 - Calculation of gains and losses on sales of assets through asset replacement and the impact of the return to existing unitholders

(Note) NAV: Abbreviation of Net Asset Value

NAV = Amount of Net assets-amount of Book value of owned real estate + Appraisal value of owned real estate

1. The reason of the asset replacement.

SAR has decided the implementation of the Asset Replacement comprehensively considering following three points based on the <Implementation policy for asset replacement> above.

① Future revenue contribution of assets to be replaced (strengthen SAR's portfolio)

The Assets to be transferred, "Hakata-eki Higashi 113 Building," is located in Fukuoka area, where the tight supply and demand in office continues. Since the acquisition by SAR, it has steadily increased contracted average rent (from the contracted average rent of 9,585 yen per tsubo as of the end of the first fiscal period (fiscal period ended July 2016) to the contracted average rent of 10,277 yen per tsubo as of the end of May 2018, achieving a 7.2% increase). As of the end of May 2018, the rent gap (Note 1) still exists, and SAR believes there remains room for a possible increase in the rent as of today. However, (i) the property was constructed in October 1987, and it is expected that life-cycle costs, such as repair costs and capital expenditures, will increase in the future, and (ii) the transfer can be easily executed and the sale price can be expected to significantly exceed the appraisal value, considering the existence of the rent gap as of the date hereof. Therefore, it was determined that the choice of "transfer" rather than "holding" will certainly contribute to maximization of unitholders' value.

Fukuoka-City, the center of the Kyushu region where the Asset to be Acquired, "Hotel WBF Fukuoka Tenjin Minami" is located, enjoys good access from the Fukuoka Airport and the Port of Hakata, and is also geographically close to Asian countries such as China, Korea and Taiwan. Therefore, the number of foreign visitors to Japan is steadily increasing given the cheaper travel costs and shorter travel time. Furthermore, it has been officially decided that the second runway will be expanded and put into service at Fukuoka Airport in 2024, and it is expected that the number of users of Fukuoka Airport will increase in the future as a gateway from overseas to the Kyushu region, which has abundant tourism resources. As a result, SAR expects that the demand for hotel accommodation will continue to increase. Considering appropriate replaceable assets among the properties in the real estate market and those properties owned by the Sponsor Group (Note 2), SAR concluded that it is appropriate and attractive opportunity to acquire the "Hotel WBF Fukuoka Tenjin Minami" for the following reasons.

"Hotel WBF Fukuoka Tenjin Minami" is located in the Tenjin area, the center of Fukuoka City, and SAR believes it will be possible to capture inbound traveler's demand, which is expected to increase in the future. SAR expects that, through the lease agreement with fixed and variable rent reflecting the hotel profit performance entered into with the tenant of this property (currently fixed rent but the fixed and variable rent will be introduced in the foreseeable future, the Asset to be Acquired will contribute to the growth of the portfolio's revenues. In addition, this property is newly constructed in February 2017 and SAR believes it will be able to maintain lower maintenance and management costs, such as repair costs

and capital expenditures, for the medium term. From the above, SAR believes that the Asset Replacement will enhance the strength of SAR's portfolio by contributing to higher revenue growth and continue to reduce the age of its portfolio.

(Note 1) The rent gap means the difference between the assumed market average rent of the surrounding area and contracted average rent. The assumed market average rent of the surrounding area is based on assessment of rent (median of the range) provided by CBRE. CBRE defined this figure as the moderate monthly rent per tsubo, comprehensively considering leasing transactions of Asset to be Transferred and surrounding competing assets in the neighboring area and the market condition, under the assumption that tenants seeking is carrying out in each timing of rent assessment and new contract is concluded by a floor unit. Contracted average rent is calculated by the whole rent of all tenants of asset to be transferred at the timing of assessing the rent divided by operated area and includes common service fee, but free rent and rent holiday as of the day are not considered and don't include tax.

(Note 2) "Sponsor Group" means (i) Star Asia Management Limited, (ii) Star Asia Management Japan Limited, (iii) Star Asia Asset Management LLC, (iv) Star Asia Group LLC, (v) Star Asia Asset Advisors, CO., Ltd., (vi) Star Asia Sogokaihatsu Co., Ltd., (vii) Malcolm F. MacLean IV, (viii) Taro Masuyama and (ix) investment vehicles in Japan that are the investment destination of funds (excluding minority investments) for which Malcolm F. MacLean IV and Taro Masuyama make investment decisions (a) that are in Japan and own or acquire investment assets such as real estate or (b) that own or acquire SAR's investment units. The same shall apply hereinafter.

② Real Estate Market Conditions by Asset Type

SAR and the Asset Manager view the current real estate market conditions for each asset type as follows.

Due to the favorable economic environment in Japan, corporate demand for office floors continues to be stable, and it is expected that supply and demand in small and medium-sized offices in particular will remain tight for the time being.

In addition, the hotel operator's business performance is expected to remain increasing due to the expected growth in demand backed by the steady growth of foreign visitors and the easing of competition with private lodging due to the enforcement of the Residence Lodging Business Act (the New Private Lodging Business Act) on June 15, 2018. Thus, the stability and growth potential in business performance of hotel owners are expected.

In light of the above recognition of the real estate market environment, and as mentioned in "① Future revenue contribution of assets to be replaced (strengthen SAR's portfolio)"- SAR decided to implement Asset Replacement giving consideration to the status of each property in its portfolio and Asset to be Acquired.

③ Level of the investment unit price of SAR

SAR and the Asset Manager are strongly aware of the level of investment unit prices of SAR. When unit price of SAR is lower than NAV per unit, we consider that there is a discrepancy between the valuation of properties in the real estate market and the valuation of SAR units in the financial market, and we will more actively consider returning the real estate value to unitholders by adding the realized gain to the distribution through the sale of properties in the asset replacement.

The investment unit price of SAR at the time of the consideration of the Asset Replacement was lower than the NAV per unit at the end of the fourth fiscal period (fiscal period ended January 2018) and remained at approximately the same level with the issue price (offer price) for the previous public offering (in January 2018), and thus we decided to implement the Asset Replacement as a part of the active management to maximize the unitholders' value.

In searching the buyer of Asset to be Transferred, the Asset Manager made the best use of Star Asia Group's wide relationship and SAR succeeded in making contract that SAR can transfer the asset's 49%

quasi-co-ownership in the sixth fiscal period (fiscal period ending January 2019) and 51% quasi-co-ownership in the seventh fiscal period (fiscal period ending July 2019) at the aggregate price of 2,580 million yen which exceeded approximately 37.7% of appraisal value of 2,070 million yen (as of the end of the fourth fiscal period (end of January 2018)).

SAR expects to record a gain on sale of the Asset to be Transferred in two fiscal periods, the sixth fiscal period ending January 2019 and the seventh fiscal period ending July 2019, which will be allocated to the distributions to unitholders.

As stated the above, SAR believes that Asset Replacement will contribute to strengthen SAR's portfolio as well as to expected increase in distribution per unit as a part of an active management which pursue maximizing unitholder's value.

As an active management that seeks to maximize the unitholders' value, SAR will continue to consider and implement a variety of measures through spirit of no constraint with conventional concepts, including the replacement of assets. Please also refer to the "Supplementary Material Concerning Acquisition and Transfer (Asset Replacement) of Real Estate Beneficiary Interests in Trust" published today.

2. Summary of Asset to be Acquired and Assets to be Transferred

(1) Overview of Asset to be Acquired

Asset to be Acquired	Beneficiary interest in trust whose main asset is domestic real estate
Property name	Hotel WBF Fukuoka Tenjin Minami
Asset type	Hotel
Date of execution of purchase agreement	July 23, 2018
Planned acquisition date	The date to be separately agreed by the seller and the purchaser on the business day by the end of December 2018 (Note 1)
Seller	Godo-Kaisha Topcat
Planned acquisition price (Note 2)	1,970 million yen
Acquisition financing	Cash on hand and the proceeds of the sale of Hakata-eki Higashi 113 Building
Appraisal value (Note 3)	1,990 million yen
Special notation	Please refer to "3.Details of Assets to be Acquired -Special Notation-".

(Note 1) The planned acquisition date will be separately announced once determined.

(Note 2) The sales price of the Asset to be Acquired stated in the sales and purchase agreement pertaining to the Asset to be Acquired (excluding acquisition expenses, consumption tax, and local consumption tax) is stated.

② Breakdown and value of the brokerage commission

Breakdown of Brokerage Fee	Brokerage fee for transfer of Trust Beneficiary Interest
Amount of Brokerage Fee	1st: Transfer Price x 1.5% (20,947,500 yen) 2nd: Transfer Price x 1.5% (21,802,500 yen) Calculated by the above calculation method (excluding consumption tax and local consumption tax)

10. Schedule for the Transactions

(1) Hotel WBF Fukuoka Tenjin Minami

July 23, 2018	Acquisition decided Conclusion of a sale and purchase agreement of trust beneficiary interest
By the end of December 2018	Acquisition of beneficiary interest in trust (planned) Payment of acquisition price (planned) Conclusion of the property management contract (planned)

(2) Transfer of Hakata-eki Higashi 113 Building

July 23, 2018	Transfer decided Conclusion of each of the sale and purchase agreements of each quasi-co-ownership of trust beneficiary interest in trust Receipt of deposit
December 3, 2018	Transfer of quasi-co-ownership (49%) of real estate beneficiary interest in trust (planned) Receipt of transfer price for quasi-co-ownership (49%) of real estate beneficiary interests in trust (planned)
February 1, 2019	Transfer of quasi-co-ownership (51%) of real estate beneficiary interest in trust (planned) Receipt of transfer price for quasi-co-ownership (51%) interest of real estate beneficiary interests in trust (planned)

11. Settlement method

As for the Asset to be Acquired, the acquisition price is scheduled to be settled in lump sum payment on the planned acquisition date. As for the Asset to be Transferred, SAR will receive the sales price with deduction of 1 million yen (2 million yen in total) for 1st and 2nd settlement that SAR has received as deposit on the contract date of the sale and purchase agreement of beneficiary interest in trust.

12. Future outlook

The Asset Replacement has led to a change in SAR's assumptions of forecasts of financial results disclosed in "Financial Report for Fiscal Period Ended January 31, 2018" as of March 16, 2018, and as difference in operating revenue, ordinary income and cash distribution per unit from the previous forecast expected to be 10% or more, SAR has made revisions on SAR's forecasts of financial results for the sixth fiscal period ending January 2019 (From August 1, 2018 to January 31, 2019).

In addition, SAR has made a revision on SAR's forecasts of financial results and cash distribution for the fifth fiscal period ending July 2018 (from February 1, 2018 to July 31, 2018).

For details, please see "Notice Concerning Revision to Forecasts for Operating Results and Distribution for the 5th Fiscal Period Ending July 31, 2018 and 6th Fiscal Period Ending January 31, 2019" as of today.

(Note 1) With respect to the "(Planned) acquisition price", the purchase price in the sale and purchase agreement in relation to acquired assets and Asset to be Acquired is indicated. Consumption tax, local consumption tax, and expenses required for acquisition are not included in the transaction price.

(Note 2) With respect to the appraisal value of the acquired properties other than those acquired during the fifth fiscal period, the appraisal value as of

January 31, 2018 in the Real Estate Assessment Report is indicated. With respect to the properties acquired during the fifth fiscal period (Nihonbashi Hamacho Park Building, Urban Park Ryokuchi Koen, Urban Park Koenji, Funabashi Nishiura Logistics I, and Funabashi Nishiura Logistics II), the appraisal value as of November 1, 2017 in the Real Estate Assessment Report is indicated.

(Note 3) "Investment ratio" shows the ratio of the (planned) acquisition price of each of acquired assets or Asset to be Acquired against the sum of the (planned) acquisition price for acquired assets and Asset to be Acquired rounded to the first decimal place.
